

# WELCOME

## AICHI SANGYO CO.,LTD

# 1. Outline of Aichisangyo

## AICHI SANGYO CO., LTD.

Head office: Shinagawa-ku, Tokyo, Japan

- Branches Offices: Nagoya, Kansai, Hiroshima
- Established: September 11, 1937
- Paid-in Capital: ¥86,000,000. –
- Number of Employees: 150
- Business: Sales and manufacture of welding equipment and industrial machinery and real estate management

## Group companies:

- Jemix Co., Ltd. (Contracting business of heat treatment / manufacture of heat treating devices)
- A.U. Tool Company. Ltd. (Wachs line cutting & beveling machines)

AICHI SANGYO

愛知産業株式会社

# history

- “To serve industries with advanced technologies of the world”  
This has been the business objective of Aichi Sangyo ever since its foundation.  
( since 1937)

Since  
1937

Since  
1963

Since 1985

Since 2010

New factory  
September 2017

# Aichi Sangyo offers advanced technologies and reliability

**Technical  
Trading  
Company  
AICHI SANGYO**

Welding and related product

Design & manufacture for welding and grinding

Metallurgy and environment

General machinery

Machine tools and related components

Advanced materials

Heat treatment

**AICHI  
Power**

## Business objective:

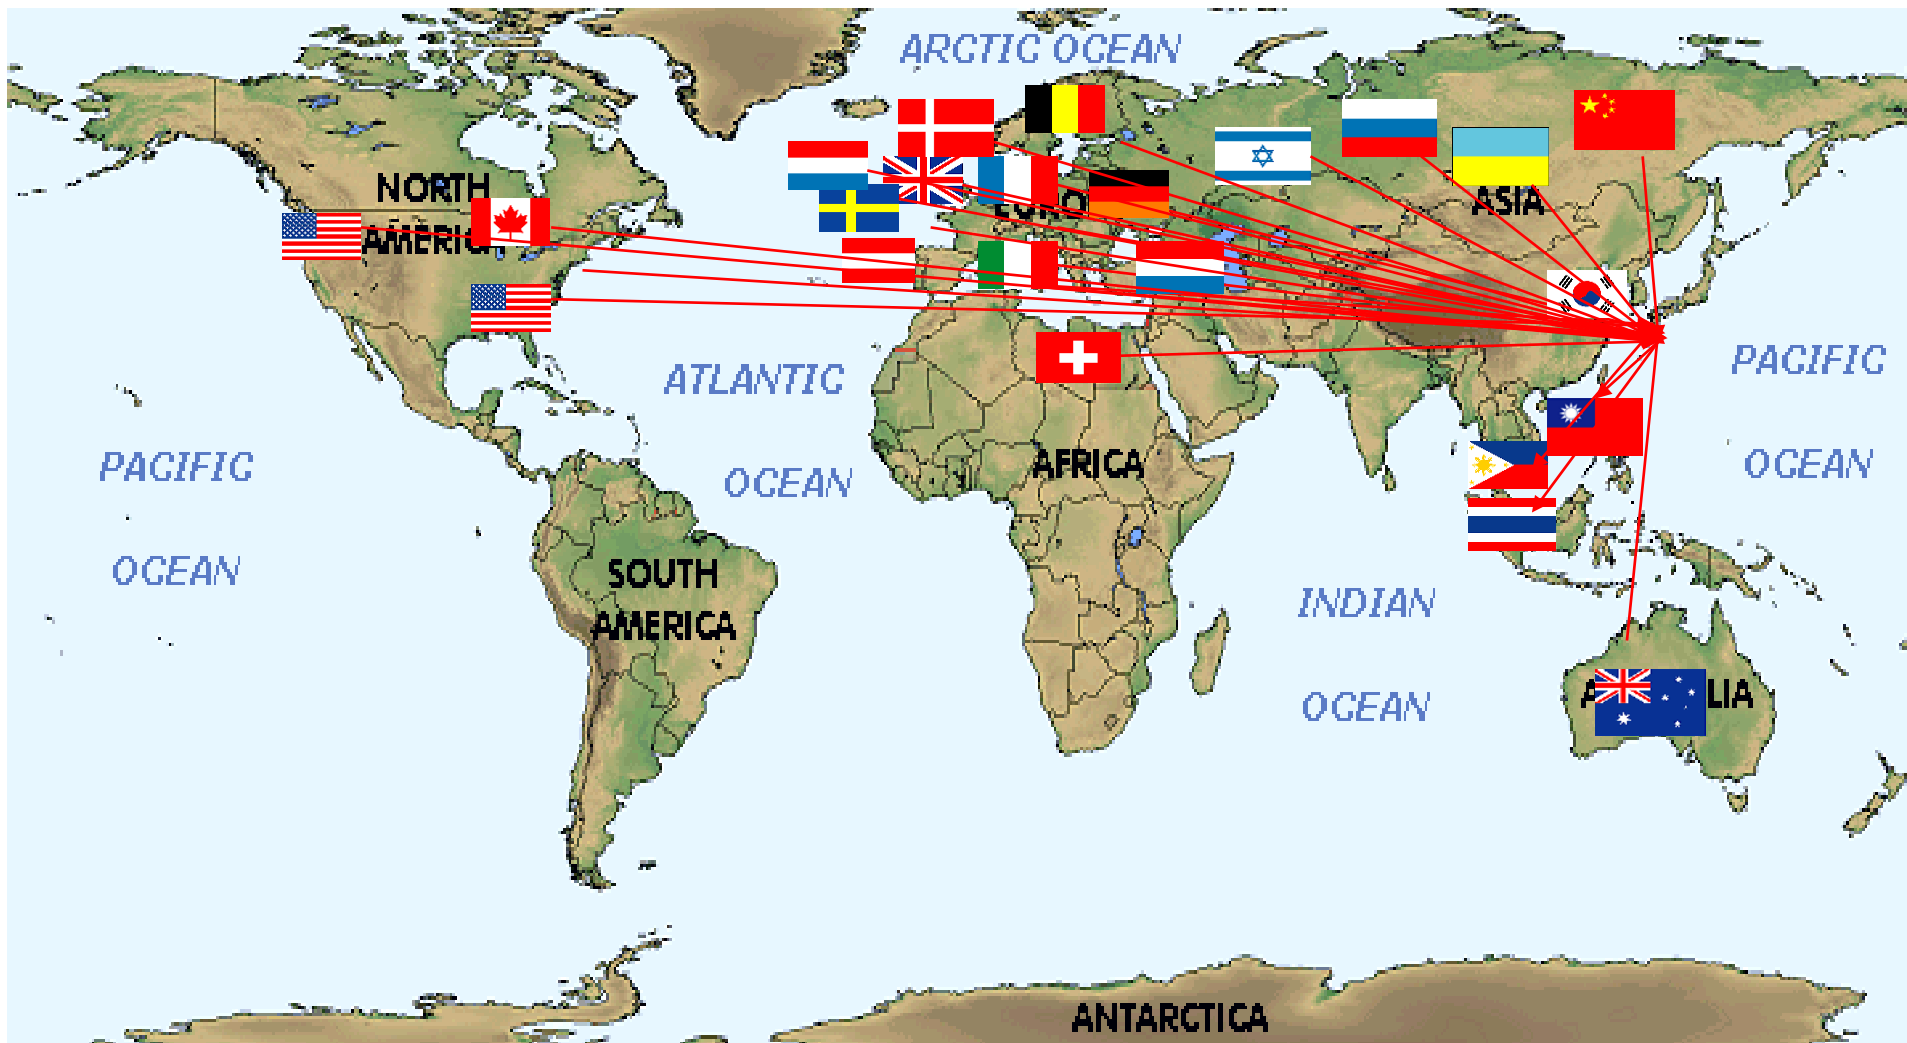

- We offer new technologies, new machinery and new materials for metal working industries and others.
- We offer efficiency, cost reduction, energy saving as well as preservation of our environment and resources.
- With quick response and hands-on expertise, we are at the service of our manufacturing industries and society.

# Import and export

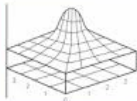

AICHI SANGYO

愛知産業株式会社

# World wide Partner

AICHI SANGYO  
愛知産業株式会社

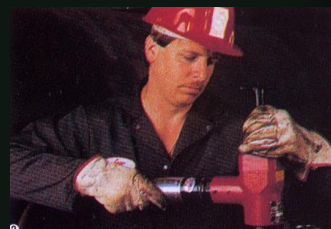

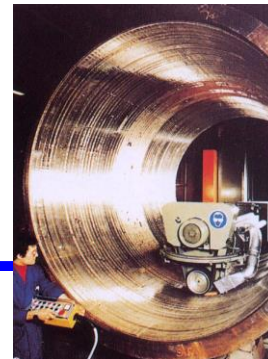

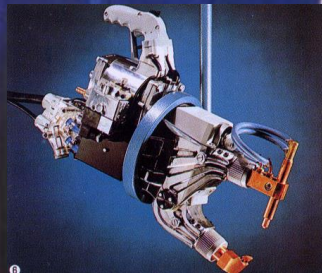

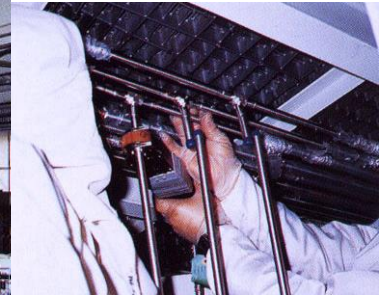

**溶接・溶接関連製品**  
Welding and related products

あらゆる溶接ニーズに  
高度な技術でお応えします。

SERVING ALL WELDING NEEDS WITH HIGH  
TECHNOLOGIES.

We started importing welding electrode from Belgium in 1930. Since then, Aichi has been instrumental in the introduction and promotion in JAPAN Of various new welding technologies.

# 溶接・研削用特殊機器の設計、製作

Design & manufacture of special machines for welding and grinding

特殊ニーズにフレキシブルな設計技術力で挑みます。

CHALLENGING SPECIAL NEEDS WITH FLEXIBLE IDEA.

Aichi-Sangyo is making the Research & Development of The new technology by getting the request form METI And other governmental organization & private sectors.

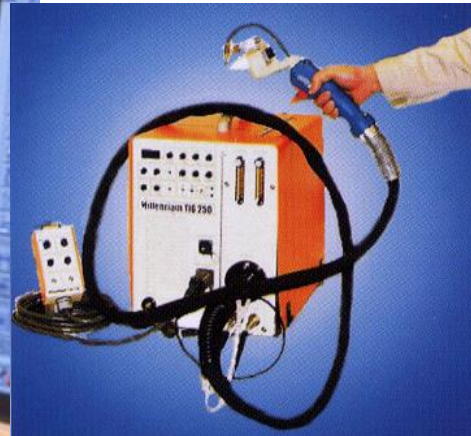

- Technology Development for Principal GAS Pipe line
- Overlay welding technology for Boiler Tube.

AC/DC Pipe welder  
Multi-Power 300

High Speed TIG  
DSP-500

High Speed Semi-AUTO TIG  
Millennium TIG250

Portable pipe & Tube welder  
ORBIT 140

## Serving all welding needs with high technologies.

- **Pipe tube vessel**

We handle equipment for cutting , end prepping welding and Heat treating of piping and tubing in power generation, All heavy industry market.

- **Welding of large structures**

We supply machines, products and service for the fabrication and building of steel structures, civil engineering tanks and Ships, bridges etc.

AICHI SANGYO

愛知産業株式会社

# Heavy industry

we install automation welding machines for Thermal power plant and other plants

# 溶接・溶接関連製品 Welding and related products

未来を担うエネルギーと環境問題に  
新しい技術で貢献します。

NEW TECHNOLOGY FOR TOMORROW'S ENERGY  
NEEDS AND ENVIRONMENTAL PROTECTION.

冶金・環境関連製品  
Metallurgy and Environment

## Metallurgical Applications

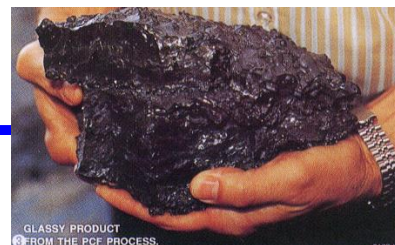

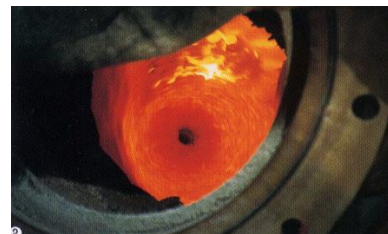

Melting systems

Precision Vacuum casting systems

Metal Powder Manufacturing  
systems

## Environmental Applications

For the treatment of all sorts of  
hazardous

GLASSY PRODUCT  
FROM THE PCF PROCESS.

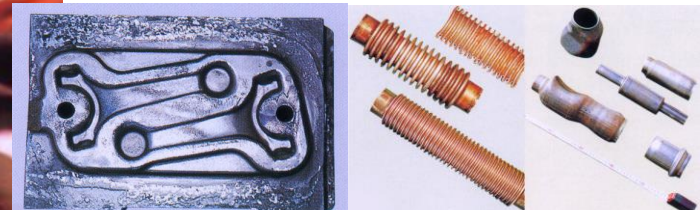

産業機械  
General machinery

生産の効率化・高度化をはかる  
さまざまな技術を提供します。

FOR MORE EFFICIENT PRODUCTIVITY OF  
MANUFACTURING LINES

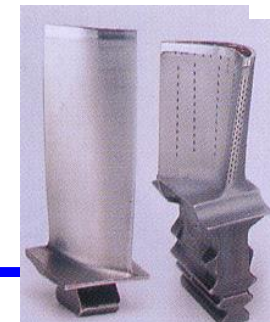

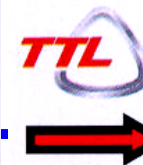

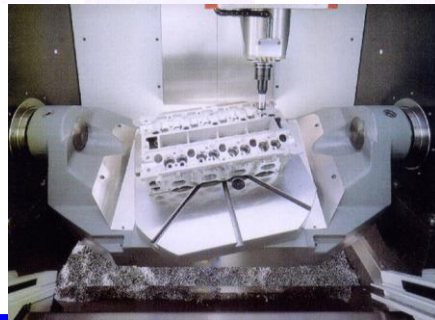

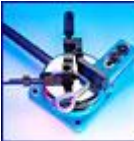

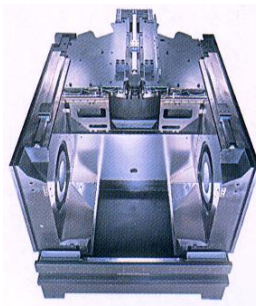

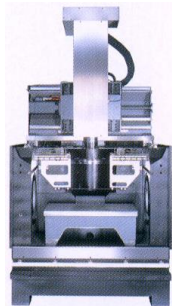

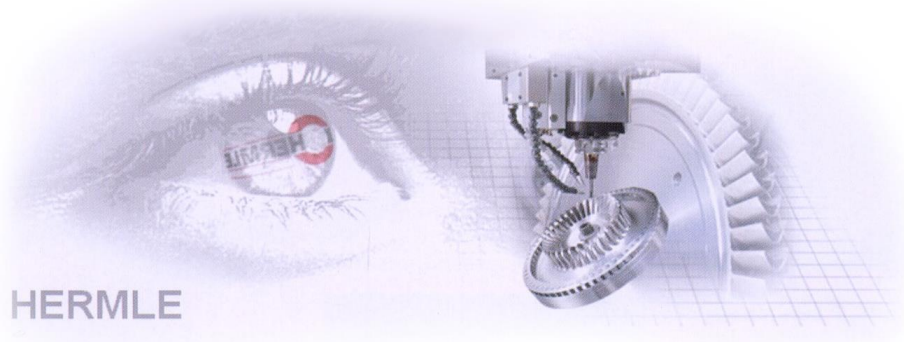

**We propose advanced Machining  
Center for Accurate Metal Processing.**

**工作機械関連製品**  
Machine tools and related components

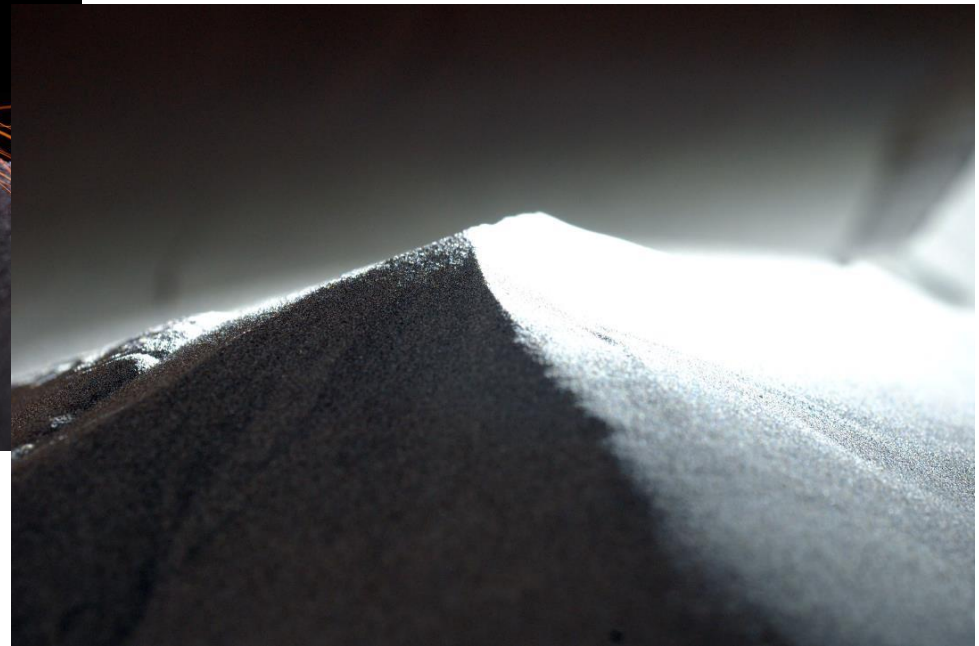

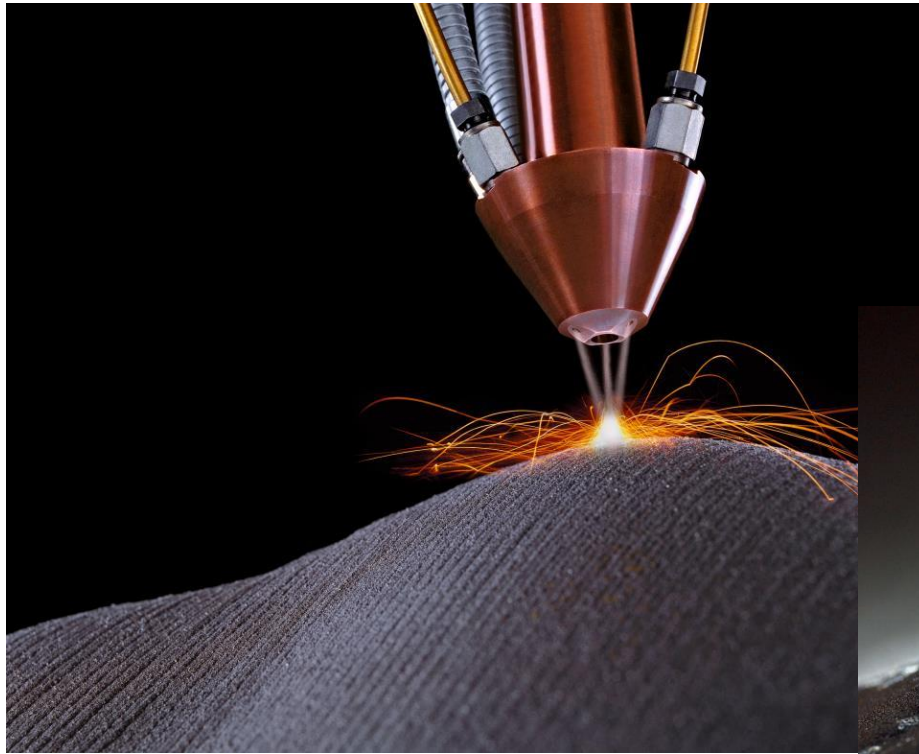

**We pursue streamlining & effectiveness of  
Machining technologies.**

# 新たな取組 3D金属積層造形
