OUR BUSINESS

your success

MAKING CONTINUITY AND SAFETY COUNT

Vlamboog produced Flair gouging torches, Optimus, Progress and Samson electrode holders and Vlamboog connectors are widely recognized for their reliability; a reputation carefully built up over decades.

Our products help reduce downtimes and increase productivity making them a perfect investment for all professional welders.

In addition, Vlamboog's well insulated and ergonomic welding and gouging sets will also contribute to a safe work environment.

ONE STOP SOLUTION FOR WELDING ACCESSORIES

Starting off as a small welding company, Vlamboog has grown into an international supplier of welding accessories, welding consumables and personal protective equipment.

Vlamboog represents numerous international brands within dozens of product groups.

Being part of a leading European group of PPE distributing and producing companies strengthens our position as a one-stop supplier. We look forward to serving you with offers designed to meet your needs!

MADE IN HOLLAND

Vlamboog is proud to be recognized worldwide as a leading manufacturer of top quality electrode holders, gouging torches and welding connectors.

Our brands have been setting new quality standards for welding and gouging since 1948 with deliveries in over 50 countries.

Vlamboog also produces a range of high-quality welding helmets and PAPR fresh air systems with a wide and loyal customer base.

All the Vlamboog branded products, as well as the private label versions of these products, are manufactured in Vlamboog's factory in Hoofddorp, The Netherlands.

A LOYAL CUSTOMER BASE WORLDWIDE

Vlamboog supplies distributors, importers, OEMs, ship suppliers, and large end users all around the globe. Our products are used, amongst others, in shipbuilding, ship repair, offshore, pipe-laying, mining and general construction. In fact, there's no part of the global welding industry that we do not serve on a daily basis. Many of our customers have been loyal to Vlamboog for decades.

COMPLIANCE IS KEY

Product compliance and quality assurance are of an ever increasing importance and concern to many of our customers.

We spend significant time and effort to make our products comply with the applicable European Standards. Furthermore, all products produced or traded by Vlamboog are subjected to strict incoming and outgoing quality inspections.
