

Perfect Display Technology Co., Ltd

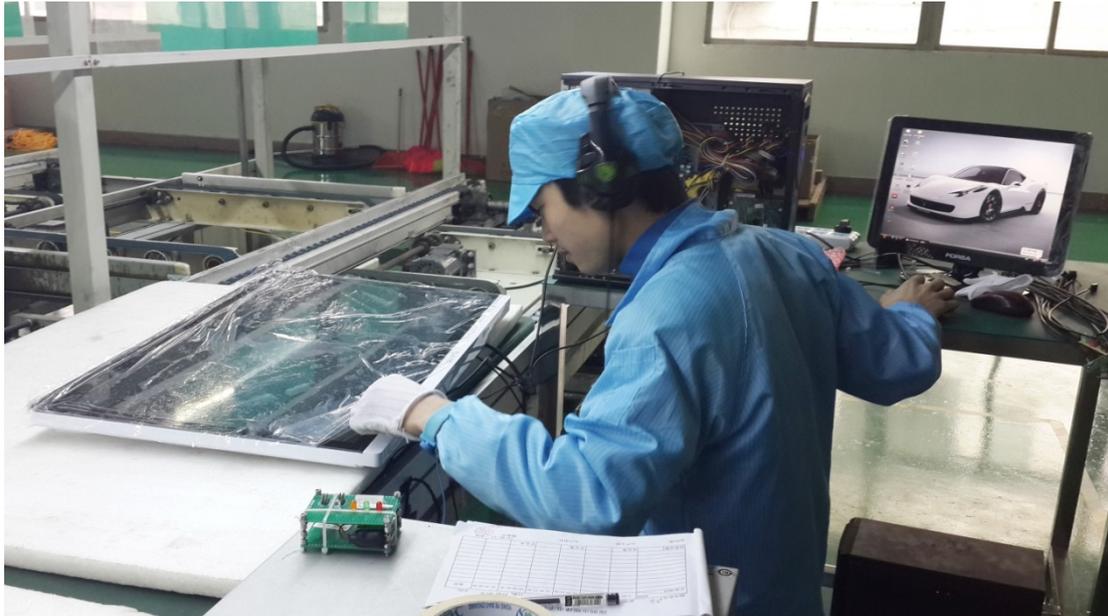

-To be a leading company in display industry

Perfect Display Technology Co., Ltd was founded in 2006, in the past 9 years, we have been engaging ourselves in developing, manufacturing and marketing of LCD/LED displays and have been grown to be a leading enterprise rapidly. Our products include LCD/LED monitor, LCD/LED TV, CCTV monitor, Touchscreen monitor and All In One computer, Digital Signage, and Interactive Whiteboard. We own factory with 15,000 square meters workshop and 2 automatic production lines with the production capacity one million units annually.

In August 2006, our factory was certified by ISO 9001:2000 certified by CQC. All of our products pass through the strictest quality inspection standards from the raw materials to the finished products to ensure highest quality and performance. All of our products are certified by CCC, CE, FCC, CB, UL, TUV, Energy Star and RoHS standards.

With experienced R&D experts and advanced technology, we launch new products and models every month. We have been holding the business philosophy of integrity, specialization, innovation, quality and service to make continuous improvement , providing value-added products and services. We also implement the enterprise development strategy of human resources and optimize four function modules including marketing , R&D, Manufacture and Service to meet the demands of the growing market and efforts to become world-class display products R&D, production base and global brand.

We do OEM/ODM for our customers, like Italy famous brand Urmet and EICO, France Ipure, Canada VENR, Greece Turbox, England QVIS and Vigilant Vision.....We have set up a long term business relationship with them about 7 years, stable supply chain help us win the good feedback from our customers.

Advantages :

1, Our quality management. we have very strong quality control team to make sure all the materials and finished products are qualified, the main materials are coming from the top 3 supplier in the market, we only use the factory original panels (AUO, CMI, LG, Samsung) A grade panels, the main board is come from the top 3 supplier in China market, the Power Supply Unit from the best supplier.

2, Quality reputation. Never lose a customer because of the quality issues, this is our quality controlling target. We have start the CCTV monitor manufacturing and developing from 2008, as per our record, all the customers are still buying from us since the first cooperation from 2008.

3, Warranty terms. 3 years quality warranty will be offered to all of our CCTV monitor customers, the spare parts will be offered with the shipment, the defective panels will be sent back to our HK warehouse.

4, Fast response time: all the defectives issues will be reacted within 48 hours after receiving your defective reports. The replacements will be offered by express service or come with the sea shipment if time is not very tight.

5, The 3rd party inspect service. We accept the SGS, BV or other 3rd party quality inspection service pointed by the customers.
