

Physical IT security.

The 1st layer security devices for your device's in/output port.

Smart Keeper

- 1 Physical security devices to control your Devices' in/output ports
- 2 Great delay mechanism and strong visual warning
- 3 Totally independent solution
No electricity, No integration/conflict with software based system
- 4 Huge benefits of security environment against the cost to equip
- 5 Perfect for IT compliance regarding controlling ports and outsiders
- 6 Selective controls possible for in-use¬-in-use ports and insiders&visitors
- 7 One point access control with only a lock key
- 8 Products and lock keys are produced in different pattern per every single customer(Not for sales to public.)
- 9 Various product line up for different usages
- 10 Certified and proven many references and patents

USB PORT LOCK [CSK-UL10]

Blocking unused USB port

USB CLOSING LOCK [CSK-PC01]

Blocking unused USB port permanently

LINK LOCK [CSK-LK10]

Allowing use of authorized USB device only
Preventing unauthorized USB device access and removal of authorized USB Device

LINK LOCK HUB [CSK-LKH01]

Connecting multiple USB devices securely and preventing unauthorized USB device access and removal of authorized USB Device

Secure USB & Secure Connector [CSK-CM10 & CSK-MG10]

Secured USB Memory stick and a connector without software installation
Secured USB memory stick works only via Secure connector.
(USB not recognized when using general USB ports)
Secure connector is locked with smart keeper lock key.

LinkON [CSK-OM10]

Unpluggable USB memory stick. Secured USB usage in public areas usage like USB contents for public display devices.
USB can be easily released by Universal Key

USB Type C Port Lock [CSK-CUL10]

Blocking unused USB Type C port

Available from Oct 2018

USB Port Lock+ [CSK-UL11]

USB PORT LOCK + guarantees higher USB Port security than USB PORT LOCK[CSK-UL10] by 2 layer locks.

Available from Nov 2018

LAN CABLE LOCK [CSK-NC10]

Network port access control device to prevent unauthorized users from removing LAN cables from PC, Server, hub or switch

NETWORK MODULE LOCK [CSK-NM10]

Locking LAN cables at network ports at once without pulling the LAN cables out. (8/12 ports)

NETWORK PORT LOCK+ [CSK-NL11]

Blocking physically unused, open Network Port Lock

FIBER OPTIC MODULE LOCK [CSK-FO10]

Blocking physically unused, open SFP module Port (MiniGBIC)

SET Physical Security

- SERIAL PORT LOCK [CSK-SPL10]**
- DVI PORT LOCK [CSK-DL10]**
- PARALLEL PORT LOCK [CSK-PL10]**

Blocking physically unused, open 9pin, DIV, Parallel port

- ODD LOCK [SCK-OL10]**

Blocking physically unused, open Optical drive

- DESK PC LOCK KEY TYPE [CSK-SL01]**
- DESK PC LOCK DIAL TYPE [CSK-SD01]**

Anti Theft and PC open protection. No modification or extra screw necessary for installation

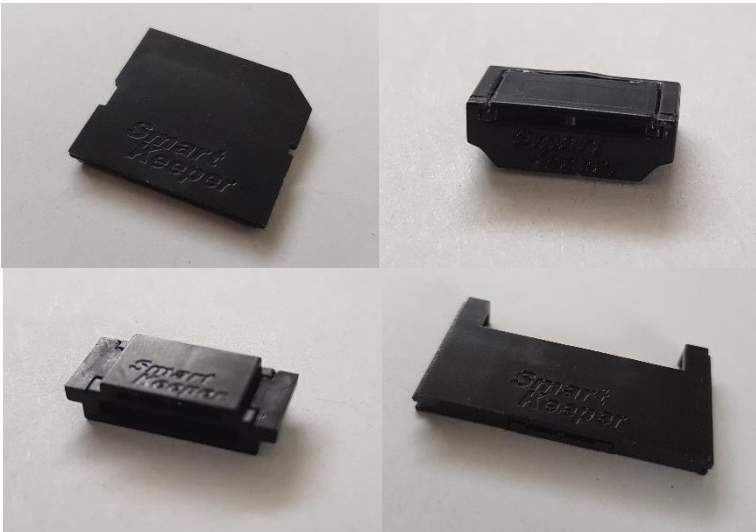

- NOTEBOOK USB LOCK [CSK-LLD01]**

Locking the notebook via USB port.
Useable for slim notebook without locks like Kensington

- UNIVERSAL LOCK KEY [CSK-U10]**

Master key for unlocking smart keeper devices

- SD Port Lock [CSK-SDD10]**
- HDMI Port Lock [CSK-HMD10]**
- E-SATA Port Lock [CSK-ETD10]**
- CF Port Lock [CSK-CFD10]**

Blocking physically unused, open SD, HDMI, E-SATA, CF Ports.

USB C Type notebook Lock [CSK-LL30]

Notebook anti-thief lock using USB C type port lock. Works specially for those think notebooks which has no kensington lock and has only USB Type C(Thunderbolt) port.

Available from Nov 2018

- Mouse Holder [CSK-MH01]**
- Dust Plug [CSK-DL]**

No.	Product Category	Photo	Product name (Model number)	Description
1	USB Port Lock		USB Port Lock (SCK-UL10)	Inserted at the standard USB port to block physically to use without electricity or program installation
2	USB Port Lock		USB Port closing Lock (CSK-PC01)	Closing USB port permanently with inserting this lock into USB ports
3	USB Port Lock		LINK Lock (CSK-LK10)	Not only blocks empty USB ports but authorizes to use specific devices such as thumb drives, keyboard, or mouse. Once they are removed, port is automatically locked
4	USB Port Lock		LINKlock Hub (CSK-LKH01)	Connected to the Link Lock that allows to use multiple devices, and prevent unauthorized devices
5	Security Memory		Security Memory (CSK-CM10)	Secure USB memory stick and a USB connector without software installation.
6	Security Memory		Security Memory Link (CSK-MG10)	The secured USB memory stick only works in combination with the secure USB connector. (USB memory stick is not recognized when used without a USB connector on a USB port) The Secure USB connector is locked with the Smart Keeper key.
	USB Port Lock	Available from Oct 2018	USB Type C Port Lock [CSK-CUL10]	USB port lock for USB Type C
	USB Port Lock	Available from Nov 2018	USB Port Lock+ [CSK-UL11]	USB PORT LOCK + guarantees higher USB Port security than USB PORT LOCK [CSK-UL10] by 2 step lock.

No.	Product Category	Photo	Product name (Model number)	Description
7	Security USB		LINK ON [CSK-OM10]	<p>A non-removable and secure USB memory stick for all public areas. This stick is safe from outside influences and can not be stolen, which makes it a safe medium in all public areas.</p> <p>This USB stick makes it possible to securely play content on image output devices in public areas.</p> <p>The memory stick is plugged into a USB port and then locked by pressing the USB lock.</p> <p>The USB stick can be easily unlocked using the associated security key. Company logo and different memory sizes are possible.</p>
8	Network Port Lock		LAN Cable Lock (CSK-NC10)	Device that locks LAN cables connected to the systems. For control network ports
9	Network Port Lock		Network Module Lock (CSK-NM10P4)	Network Port Multilock is used to prevent unauthorized users from removing LAN cables from the server. (4 ports)
10	Network Port Lock		Network Module Lock (CSK-NM10P8)	Network Port Multilock is used to prevent unauthorized users from removing LAN cables from the server. (8 ports)
11	Network Port Lock		Network Module Lock (CSK-NM10P12)	Network Port Multilock is used to prevent unauthorized users from removing LAN cables from the server. (12 ports)
12	Network Port Lock		Network Port Lock + (CSK-NL11)	Device that locks LAN cables connected to the systems. For control network ports

No.	Product Category	Photo	Product name (Model number)	Description
13	Optic Port Lock		Fiber Optic Module Lock (CSK-FO10)	Blocks an unused empty fiber optic port to restrict usage. (Mini GBIC)
14	Set Port Lock		Serial Port Lock (CSK-CPL10)	Inserted at the standard serial port to block physically to use without electricity or program installation
15	Set Port Lock		DVI Port Lock (CSK-DL10)	Inserted at the standard DVI port to block physically to use without electricity or program installation
16	Set Port Lock		Parallel Port Lock (CSK-PL10)	Inserted at the standard Parallel port to block physically to use without electricity or program installation
17	ODD port Lock		ODD Lock (CSK-OL10)	Inserted at the standard ODD driver to block physically to use without electricity or program installation
18	Set Port Lock		SD Port Lock [CSK-SDD10]	Blocks the open or unused SD Ports.
19	Set Port Lock		HDMI Port Lock [CSK-HMD10]	Blocks the open or unused HDMI Ports.
20	Set Port Lock		E-SATA Port Lock [CSK-ETD10]	Blocks the open or unused E-SATA Ports.
21	Set Port Lock		CF Port Lock [CSK-CFD10]	Blocks the open or unused CF Ports.

No.	Product Category	Photo	Product name (Model number)	Description
22	PC Lock		Desk PC Lock Key Type (CSK-SL01)	Anti theft and PC open prevention. No modification on PC set necessary (key type)
23	PC Lock		Desk PC Lock Dial Type (CSK-SD01)	Anti theft and PC open prevention. No modification on PC set necessary (dial type)
24	PC Lock		PC Wire	Wire for PC lock
25	PC Lock		Notebook USB Lock (CSK-LLD01)	Plugges in USB port to lock the notebook for anti theft. Useable also for slim notebooks which doesn't have kensington lock
26	Universal Key		Universial KEY (CSK-U10)	Master key for Smartkeeper (individual key pattern per custpmer)
	PC Lock	Available from Nov 2018	USB C Type notebook Lock [CSK-LL30]	Notebook anti-thief lock using USB C type port lock. Works specially for those think notebooks which has no kensington lock and has only USB Type C(Thunderbolt) port.
	Others		Mouse Holder [CSK-MH01]	
	Others		Dust Plug [CSK-DL]
