

Made in Italy

# Nubi

## 4.0

## The next generation smoke machine

The only one and innovative  
**for burglar alarms**  
in residential and commercial environments

SMARTEK

## #01 Very low consumption

NUBI 4.0 does not have a boiler, it is a low consumption device that save energy and money from the electricity bill, so it also loves the environment.

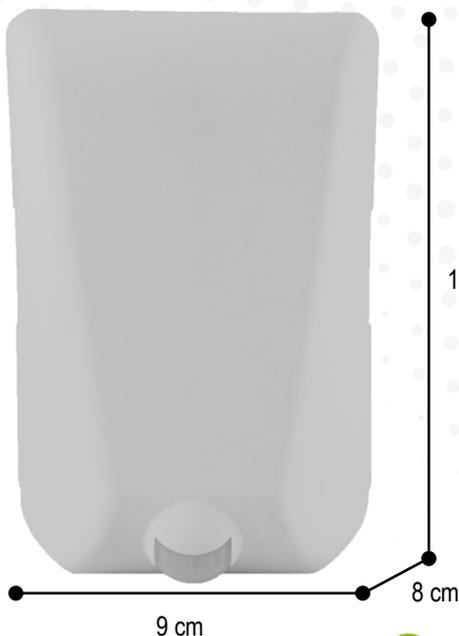

## #02 Non-toxic

The smoke generated by Nubi 4.0 does not produce toxic atmosphere, as from TLV-STEL EU directive 2017/164 and ACGIH. After use is recommended to ventilate the room before staying. The used cartridge will be disposed of in accordance with local requirements.

## #03 Small size

NUBI 4.0 is the smallest one in its class, it can be placed on the wall, also on the corner. The white plastic box ensures the minimal visual impact, in some cases it can be easily painted with the same color of the wall.

**IT'S JUST A LITTLE  
BIT BIGGER  
THAN ME!**

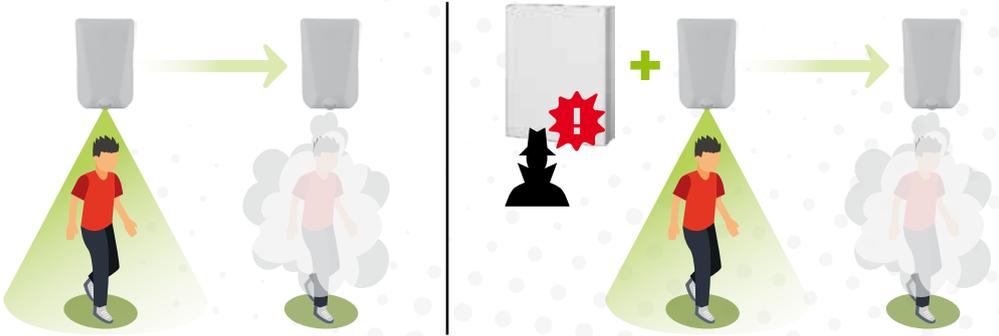

*Nubi 4.0*

## #04 Smart

The smart algorithm used by the integrated infrared detector minimizes the risk of false alarms, especially when Nubi 4.0 is connected to an existing burglar alarm system.

## #05 Expandable

SMART WiFi option transforms NUBI 4.0 to a remote video surveillance system. Through a smartphone APP, tablet or PC, you will be able to see the camera images, then run the smoke generation. With the built-in burglar alarms option, you will also be able to switch on/off the system.

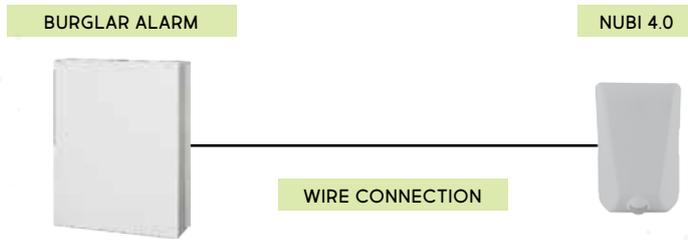

## #06 For any use

NUBI 4.0 can be connected by wire or wireless to any existing burglar alarm panel or used with the built-in burglar alarm option.

### ○ Nubi 4.0

### ○ Nubi 4.0 + RTX option

### ○ NUBI 4.0 + built-in burglar alarms option

## NUBI 4.0 transforms your burglar alarm to a real ward off system

As soon as your protected area is hacked, NUBI 4.0 will run reducing visibility second by second. The immediate escape will be the solution for the burglars and thanks to NUBI 4.0 active protection, the attempted theft will be thwarted.

## #07 Technical specifications

|                                   |                                   |
|-----------------------------------|-----------------------------------|
| Power supply                      | 12VDC $\pm$ 15%                   |
| Consumption                       | 10mA                              |
| Size                              | 9 cm b. x 14 cm a. x 8 cm p.      |
| Saturable volume                  | 100m <sup>3</sup>                 |
