

PRESTO CELEBRATES ITS 90TH ANNIVERSARY!

This year, PRESTO® is celebrating its 90th anniversary. A magnificent anniversary that the Group is toasting with a look towards the future.

Innovating for the future

Since it was founded in 1927 by the Patient PRESTO brothers, the creator of timed-flow tapware has followed world trends and taken up many technological challenges. For 90 years, PRESTO has designed and manufactured products for intensive use in the most demanding environments, those of establishments open to the public.

Firmly grounded in its history and identity, innovation is the group's major ambition. Innovation changes the world. The talent and passions of mankind are without limit. Improvement is always possible. This steadfastly positive vision, shared by all PRESTO employees, has enabled the company to triumph through the ages and to anticipate the future.

The company pursues its quest of improving the efficiency and use of our natural resources while reducing any impact on our environment with 4 new lines:

- **NEO® Duo:** the new dual timed-flow washbasin tap.
- **MASTERMIX®:** the new range of high-security thermostatic mixers.
- **PRESTOTEM® 2:** the new generation of shower panels with a revolutionary design.
- **The Stainless Steel range:** the new environmental range.

Since 1927, the PRESTO group has designed, manufactured and distributed the most water efficient tapware to facilities open to the public.

The inventor of the timed-flow tap, a technology "made in France, unique throughout the world, our company has since developed hundreds of patented taps.

From invention to innovation, the PRESTO group is the leader in the design and manufacture of tapware and accessories for sanitary appliances in healthcare facilities (with the SANIFIRST brand®).

Today, more than ever, the PRESTO group is committed to saving water in public spaces.
