Trade Fair for Sanitation, Heating, Air Conditioning and Renewable Energies

New Exhibitors Strengthen SHK ESSEN 2018

In Addition to the Leaders in the Sector, Numerous Hidden Champions Present Themselves

For many companies, SHK ESSEN at Messe Essen from March 6 to 9, 2018 will be the ideal platform for the presentation of their innovations. As the most popular national trade fair for the sanitation, heating and air conditioning (SHK) sector with 560 exhibitors and 48,000 visitors last year, it is the point of attraction for decision makers. Last time, 96 percent of the exhibitors at SHK ESSEN reached their target groups and 91 percent were satisfied with their business success. The large number of new exhibitors will reflect the high status of the trade fair for the industry.

Functional design solutions for modern housing construction as well as resource-conserving technologies are the strengths of the sanitation industry which it will exploit to the full in Halls 6, 9, 10, 11 and 12 at SHK ESSEN. The range offered by the exhibitors will encompass, amongst other items, sanitary objects, sanitary fittings, shower partitions and bathroom furniture. In addition to the well-known leaders in the sector, many hidden champions which will be first-time exhibitors at SHK ESSEN will await the trade visitors. The companies giving their premieres at the fair will include the following manufacturers: duka with high-quality shower cubicles and HOMA Pumpenfabrik with products and system solutions for waste water disposal and treatment. Another new participant will be, for example, the manufacturer JAKA-BKL with the bathroom furniture brand called jasani.

Heating Sector Presents Itself with Sustainable High-Tech Products

Highly efficient heating technology for new and existing buildings is in particular demand on the occasion of the energy transition. At SHK ESSEN, the sector will present its available range in Halls 1, 2 and 3. Amongst other items, that will consist of products for heat generation and heat transfer as well as heating fittings and exhaust gas systems. For the major market leaders, SHK ESSEN is an absolute must. In addition, several new exhibitors will ensure more diversity: With ROTEX Heating Systems, Messe Essen will greet a manufacturer of environmentally compatible heating systems. Another new company at the trade fair will be Ulrich

Brunner whose range on offer will include tiled stoves, fireplaces and heating boilers. The other first-time exhibitors will include Kospel and WITA Wilhelm Taake.

Innovative air conditioning and ventilation systems are decisive for a healthy living climate. At SHK ESSEN, visitors will find exhaust air systems, supply and exhaust air systems, fans, systems with heat recovery and products for air treatment. The firms giving their premieres at the fair will include Blauberg Ventilatoren, HeLuVent, LTM, Pluggit and RF-Technologies.

Furthermore, there will be movement with regard to the subject of renewable energies: The North Rhine-Westphalia Energy Agency will enlarge its fair booth because of the high demand from co-exhibitors. Further products and solutions relating to all aspects of regenerative energy systems will be shown, amongst other companies, by the new exhibitors EC POWER and Kingspan Environmental.

More Tools and Operating Equipment for SHK Practitioners

SHK ESSEN will be a fair for doers. Therefore, tools and operating equipment will account for a substantial proportion of the range on offer. In Hall 7, the booth of Theo Förch, a supplier of workshop, assembly and fastening articles, will await the SHK practitioners for the first time. Moreover, suppliers of refrigeration technology, pipes and piping mains components, building technology, energy technology, EDP solutions and software as well as service providers will be represented at the fair. All of them will show: SHK ESSEN will congregate the entire sector under one roof. Now that a large proportion of the area has already been allocated, any other interested exhibitors should hurry up. Registration is possible at www.shk-essen.de.
