Buckets:	1.000gr – 10.000gr
Skinning:	various
Dorpaks:	any size
Doys:	500gr – 2.000gr

Our Product

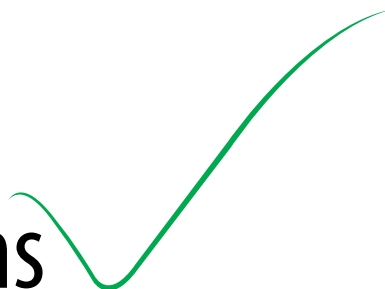

SEASONS is specialized in organic and organo-miniral fertilizers and soil improvers .

We have a complete and balanced range of fertilizers based on a variety of raw materials and formulas.

From compounds to pellets, crumbs or granules: from vegetable and animal raw materials, enriched with minerals. A natural basis, just as you and your customers expect.

Seasons develops innovative products that are really in demand. This includes both multi-purpose fertilizers at favourable prices and high-end plant food for the demanding hobby gardener. We determine the nutrient and trace element levels and, if requested, enrich the fertilizer with guano, mycorrhiza or seaweed extracts.

Seasons

Our Product

OPTIMAL SUPPLY of NUTRIENTS AND HUMUS

SEASONS fertilizers improve soil conditions and provide all essential nutrients and trace elements. They are tuned to the specific needs of garden plants to encourage strong and healthy growth.

- Nitrogen and magnesium for vigorous growth and rich green foliage
- Phosphate for rich and abundant flowering and optimal root growth
- Potassium for strong plants with a high disease resistance
- Trace elements for healthy plant growth
- Organic matter for stimulation of humus building, improved soil life and moisture retention
- Organic raw materials for slow-release and continuous nutrient supply
- Suitable for tender plants
- User-friendly application

RAW MATERIALS

A selection of our raw materials:

Chicken manure crumbs

Grape pulp meal

Feather meal

Bone meal

blood meal

Horn chips

Our Product

Gardening range

- 1 Organic manure
